

February 2022

January was a difficult month with Omicron Covid cases in the school. The good news is with the exception of 2 classes that were remote learning for a few days, the school remained open. Also, with all staff and students who contracted Covid, most symptoms have been more cold and flu, which means that Omicron is not producing severe symptoms within our community.

Attendance in our classes is improving. We are reminding all parents that we are doing our best to keep your children safe and want to remind you that students need to be in school and on time every day. If a child has Covid or is sick they should stay home, otherwise all students should be attending school.

We are recognizing Hijab Day in February. On Friday, February 11th All students in grades 6 – 12 will be having a Hijab/Modesty day where they can wear their own Hijabs and modest clothing. Preschool to Grade 5's will have traditional dress day as well as celebrating 100 days of school on that day.

We will have a February break the week of February 21 – 25. Hopefully we will have good weather so the children can enjoy the outdoors with you and your families.

We continue to ensure the health and safety of our students and are still limiting the people in our school building to a few parents, staff and students only. It is our hope that as restrictions continue to be lifted we can see more of our parents and community.

Thank you to your commitment to your child/children's education. We are so proud of our students and it is a thank you to parents for ensuring the students attend school, complete their homework and emphasize Islamic manners.

Mrs. Starla Nistor
Principal
